Profile

Goal oriented PHP developer with a strong commitment to delivering efficient and adaptable web solutions. Seeking a stimulating role within a dynamic organization to apply my proficiency in PHP, Symfony and Shopware towards the advancement of innovative applications.

Employment History

Apr 2023 – Current Senior Web Developer (Freelance - Remote)

Digitalagentur Seidl

Collaborated closely with client to understand the objectives and translated them into functionalities. My services as a **Shopware developer** included following

- Migration of Shopware 5 shops to Shopware 6
- Development of customised Shopware plugins.
- Migration of plugins from the Shopware version 5 to 6 as well as from Shopware 6.4.* to 6.5.*
- Support for shop issues/bug fixes
- Update and management of Shopware 5 applications.

Dec 2018 – Mar 2023 Senior Developer

Kochi, India

BEO Software Solutions,

Proactively managed multiple e-commerce projects simultaneously, delivered high-quality, bug free code, thereby established a reputation for reliability with the German e-commerce client company **Loy Gmbh** under the payroll of BEO Software Solutions. I was responsible for

- Development and maintenance of online stores built using **Shopware**.
- Integration of third-party services.
- Development of custom plugins and extensions.
- Maintenance and management of existing plugins and extensions.
- Migration of data from different e-commerce platforms to Shopware

Jun 2018 – Sep 2018 Business Associate

Bangalore, India

Tata Consultancy Services

Implemented custom features and functionalities, tailored to clients' specific requirements, leading to enhanced site performance and streamlined business operations. Worked with a team of experienced and intelligent developers from TCS, under the payroll of IDC Technology Solutions. My responsibilities included,

- Understand business logic of existing system and maintain the system with new facilities as per client request.
- Manage complex database functionalities and design new database tables as per requirement.

Feb 2017 – Mar 2018 Senior Systems Engineer

Trivandrum, India

Reizend IT Consultants

- Conducted comprehensive consultations with clients, effectively translated their business objectives into customized web solutions that elevated their online presence and facilitated increased user engagement.
- As a project manager, managed a team of efficient and work oriented developers, assigned works among the team, completed the client project successfully within the deadline.
- As a team leader, led a team of experienced and growing developers, transfer knowledge with the team, aligned team with the growth of the project, completed assigned works successfully within the deadline.

May 2015 – Jan 2017 Programmer

Trivandrum, India

National Informatics Centre (NIC)

My duties with the company included,

- Development of web applications for the governmental organizations in Kerala, India
- Develop core functionality and supporting functional tools.
- Analyse and understand client requirements. Discuss with them and find possible solutions.
- Backend development using PHP and MySQL, handle front end using HTML, jQuery and CSS.
- Develop new features. Modify, support and maintain live applications by the company.

Dec 2013 – May 2015 Software Developer

Trivandrum, India

SPACE (Society for the Promotion of Alternative Computing and Employment)

- Concentrated on designing database and developing web applications for the internal purpose of organization.
